

Call for Papers

ComForEn 2015

6th Symposium on Communications for Energy Systems

07.-08.09.2015

TechGate

Donau-City-Straße 1, 1220 Wien, Austria

In order to promote the scientific exchange in the context of intelligent energy systems in Austria and beyond, the sixth Symposium on Communications for Energy systems is seeking for original contributions in the field of energy systems that cover communication, control or IT aspects and are conducted in cooperation with industry and/or infrastructure operators.

Potential Topics for contribution can be (but are not restricted to):

- Verification of networked smart grid systems
- Co-Simulation of energy and communication domain
- Energy market and agent communications
- Communication protocols for smart grid automation
- Coordination schemes and/or infrastructure for electric vehicle charging
- Assessment of the reliability of interlinked IT and energy systems
- Forecasting models and algorithms
- Demand side management implementations

ComForEn is a yearly event that brings together energy and information technology experts from science and industry to discuss emerging topics in the context of current Austrian smart grids research projects. It is jointly organised by AIT Austrian Institute of Technology GmbH, Vienna University of Technology (Institutes of Computer Technology, Telecommunications as well as Energy Systems and Electrical Drives) and the OVE. Submissions can be made in German or English (preferred), and will be reviewed for the scientific board.

ComForEn 2015 is jointly organised with the International Symposium on Smart Electric Distribution Systems and Technologies (EDST). <http://www.edst2015.org>

Symposium organisation

Friederich Kupzog, AIT
Thomas Leber, TU Wien

Scientific Board

Thomas Bleier, AIT
Alfred Einfalt, Siemens AG
Wolfgang Gawlik, TU Wien
Wolfgang Hribernik, AIT
Peter Palensky, TU Delft
Andreas Schuster, ASCR
Tanja Zseby, TU Wien

Submission Details

www.edst2015.org/submission.html
Please submit to track "ttcfr15": *Scientific Results from Ongoing Smart Grid Research in Austria and Beyond (ComForEn 2015)*

Timeline

Submission Deadline: **01.04.2015**
Notification of Acceptance: **01.06.2015**
Final Submission: **01.07.2015**
